PROFESSIONAL SUMMARY

Motivated MERN Stack & Frontend Developer with hands-on experience through Web Designing with ReactJS internship and multiple full-stack projects. Skilled in **React.js, JavaScript, Node.js, Express.js, MongoDB, HTML, CSS**, and REST API integration. Passionate about building responsive, user-friendly web applications with clean, maintainable code. Quick learner with strong problem-solving skills and a keen interest in continuously learning new technologies.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, HTML5, CSS3
Frontend: React.js, Angular, Bootstrap, Responsive Web Design
Backend & DB: Node.js, Express.js, MongoDB Atlas, RESTful APIs
AI Workflows: AI-Augmented Full-Stack Development, Prompt Engineering, Rapid Prototyping
Developer Tools: Git, GitHub, VS Code, Chrome DevTools, npm
Soft Skills: Problem Solving, Project Management, Effective Communication, Team Collaboration

WORK EXPERIENCE

InnoBrain Technologies

May 2026 – Jun 2026

Web Designing with ReactJS Intern

On-site

- Completed an intensive 15-day on-site internship working directly in a collaborative environment on live projects.
- Developed responsive web interfaces using ReactJS, JavaScript, HTML5, CSS3, and Bootstrap, ensuring compatibility and speed.
- Implemented component-based architecture and utilized modern frontend workflows for efficient state management.
- Contributed actively to an E-Commerce platform, participating in debugging, testing, and integrating RESTful API endpoints.

KEY PROJECTS

AI-Powered Resume Builder

React.js, Node.js, Express.js, MongoDB Atlas

- Engineered a full-stack AI Resume Builder with simple form-fill creation, live preview, customizable templates, and PDF export.
- Implemented AI content generation, resume parsing, image upload, and secure user authentication using Node.js & Express APIs.
- Integrated MongoDB Atlas for user data management and built a fully responsive, intuitive React frontend UI.

Full-Stack E-Commerce Web Application

MERN Stack (MongoDB Atlas, Express, React, Node)

- Developed a full-stack retail platform featuring product search, filtering, shopping cart, wishlist, and order management.
- Built Node.js/Express RESTful APIs and MongoDB database for efficient product, user data, and order operations.
- Designed separate Admin and User Panels with role-based access requested during login/signup for dedicated control.

TechNova – Corporate IT Service Website

React.js, Node.js, Express.js, HTML5/CSS3

- Designed a responsive corporate IT website with reusable React UI components showcasing services and technology stack.
- Developed backend APIs for secure user authentication with database storage to handle user accounts safely.
- Integrated an email-based contact form sending customer inquiries directly to company email via Express backend services.

Hangman Game Application

HTML5, CSS3, JavaScript (ES6)

- Developed an interactive Hangman game featuring dynamic word-guessing gameplay, score tracking, and custom win/loss conditions.
- Designed a clean, responsive UI and executed robust client-side DOM manipulation and input validation using JavaScript.
- Built state-handling algorithms to manage active guess attempts, dynamic graphic rendering, and instant re-initialization.

EDUCATION

Madhuben & Bhanubhai Patel Institute of Technology (MBIT)

CGPA: 9.07

Bachelor of Technology (B.Tech) in Computer Engineering

Gujarat, India
